### Microsoft Learn AI Skills Challenge

Whether you're a seasoned technology professional or are just starting out, this month-long immersive challenge will help you gain the skills, confidence, and Microsoft Credentials needed to excel in the era of AI. Each topic features a selection of resources to help you succeed, including interactive Microsoft Learn community events, live and recorded learning sessions delivered by AI experts, plus training tools.

### Challenge Details

Choose from four cutting-edge AI topics. Each features a challenge with a selection of resources to help you succeed, including interactive Microsoft Learn community events, live and recorded learning sessions delivered by AI experts, plus training and preparation resources to support you in earning your Microsoft Credentials.

Depending on the challenge topic you choose you can learn how to do the following:

- Build your own generative AI applications
- Work smarter, be more productive and boost creativity with AI-infused tools
- Reshape how users' access, manage, and act on data with a single, AI-powered platform
- Use an enterprise-grade AI service for the end-to-end machine learning lifecycle

### Important Reminders

By completing one of the challenges, you can become eligible for a free Microsoft Certification exam (limit one per customer, [terms and conditions](#) apply).

If eligible, your free exam offer will be delivered via email one week after the challenge ends. Confirm your email [here](#). You must complete your exam before June 24, 2024. To see the full list of eligible exams please refer to the [official rules](#).

**Have questions?**

See the [official rules](#) for more details and find answers in the challenge FAQs.
